

BUILD YOUR SCENES

Write the stand alone memory of the SUSHI

2
choices

With ARCOLIS app (Android)

Download the free Arcolis app from the Android play store, plug an OTG usb cable from the smartphone to the SUSHI interface.

- By USB, the app can also access all recent USB interfaces from Nicolaudie (U9, U8, UE7, STICK range)
- By WIFI, the app can also access all recent Ethernet/IP interfaces from Nicolaudie (DE3, KE1, UE7)
- Caution : Arcolis is not available on iPad/iPhone (iOS)

With ESA software (Windows)

Download the free ESA (Easy Stand Alone) software from our website. It offers advanced features like Scanlibrary or Color Manager.

- ESA software (Windows only) can access all other interfaces from Nicolaudie.
- ESA2 Windows/Mac Software option also available to purchase extra

USE IN STAND ALONE

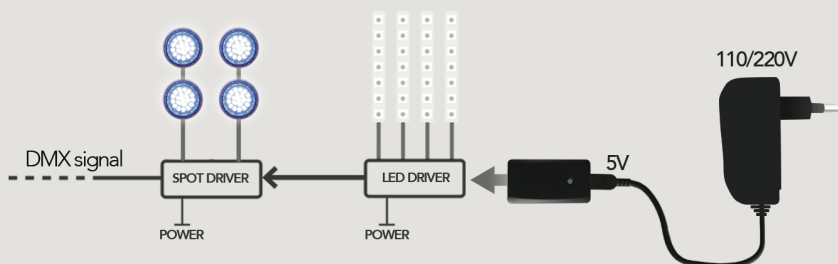

Control your lights without computer / smartphone. Use a standard USB 5V power supply. Mount it with the optional wall or din-rail supports.
